| 2011 | Literature: Five books related primarily to UK postmarks, incl. Westley Postal Cancellations of London 1840-1890, Brumell British P.O. numbers 1844-1906, Alcock & Holland British Postmarks as well as Maltese Cross cancellations of the UK. | | Offer | (€ 0) |

To have a better chance of being successful as a postal bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of CHF 10'000 and setting a limit of CHF 7'500 for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that postal bidders are rarely successful on all lots. On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a total purchase limit (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

"Anything but the usual..."

Missing colour errors - the result of paper folds, faulty plates or cylinders, excessive cleaning fluids, insufficient ink, or temporary pressure changes in paper during reel printing - range from the subtle to the spectacular. They are flawed masterpieces in miniature. Caused unintentionally, the result of human or mechanical failure, missing colour errors should be detected and destroyed before reaching post office counters. Few evade the checks. Those that survive the hunt and cull are highly prized. The story of their subsequent serendipitous discovery (at a post office counter, on a first day cover from an issuing bureau, as part of a new issue service, in an auction lot) becoming the stuff of philatelic folklore..."

Tom Pierron in 'Pierron's' Catalogue of "Modern Great Britain & Commonwealth Missing Colour Errors" (2008)

Corinphila is proud to present one of the finest collections ever formed, untouched for over 30 years and hidden in a German bank vault.
