Biografía: Julio Lugón Badaracco

Julio Gabriel Lugón Badaracco nació en Lima - Perú el 4 de septiembre de 1918. Su padre era descendiente de un suizo y su madre de italianos. Fue el tercero de cinco hermanos. Estudió en el colegio San Agustín. En el año 1933, tras la muerte de su padre empieza a trabajar en el negocio de panadería de la familia.

Desde joven dedicó parte de su tiempo a la lectura, los libros de Salgari eran sus preferidos porque estaban llenos de aventuras y, como decía, le enseñaban mucho del mundo, sus países y sus historias. Tal vez por eso siempre le gustó viajar y conocer diferentes lugares.

En el año 1942 se casa con Ana Ceruti, con quien tuvo 11 hijos, 30 nietos y 14 bisnietos.

Como hombre trabajador, con una gran visión, hizo crecer el negocio de la familia hasta convertirlo en una gran empresa de alimentos.

Tenía muchas aficiones, como la música, el arte y las corridas de toros, pero no fue hasta ser ya una persona mayor cuando cumplió algo que él siempre había deseado, pero que las diferentes circunstancias de su vida no se lo habían permitido: coleccionar estampillas.

Lo que comenzó como una afición se convirtió en una gran pasión.

Empezó coleccionando estampillas del Perú en general y posteriormente se especializó en el periodo clásico, comprendido en las emisiones entre los años 1857 a 1873.

Realizó un estudio de las tres primeras emisiones litografiadas, las emisiones impresas en tiras por la maquina Lecoq y la primera serie dentada de las llamitas impresa por la American Bank Note Co., así mismo, su colección clásica de Perú destacó por el estudio y gran variedad de cancelaciones y matasellos utilizados en las diferentes localidades del Perú y en la correspondencia certificada, marítima y al exterior.

Es esta la colección en la que puso mayor empeño y dedicación, y en la cual se ve reflejado el profundo amor que sentía por su patria. Reunió las mejores estampillas del Perú logrando tener una de las más importantes colecciones de Perú clásico.

Otros colecciones secundarias que desarrolló paralelamente son las temáticas, por sus intereses personales: “El Puente”, que para él tenía un gran significado, porque lo veía como un elemento de unión; “Tauromaquia”, por su afición a las corridas de toros; “El trigo y sus derivados”, por su actividad profesional y “Muñeca”, dedicada a su esposa.

Dentro de la Asociación Filatélica del Perú es una figura emblemática. Durante 20 años se dedicó a trabajar para que sea una entidad organizada, patrocinando muchas de sus actividades y donde sus miembros trabajarán en forma armoniosa. Formó parte del consejo directivo de la asociación desde diferentes puestos, que siempre aceptó con entusiasmo pero, sobre todo, con mucha

responsabilidad y honestidad, unas de las tantas virtudes que lo caracterizaban. Llegó a ser presidente de la institución.

Julio Lugón le ha dado a la filatélica peruana un reconocimiento mundial, siendo uno de los filatelistas peruanos mas destacados.

Su primera presentación en exposiciones mundiales fue en la Exposición de Philexfrance '89, donde recibió la Medalla de Vermeil.

Las medallas obtenidas en Exposiciones FIP son las siguientes:

- Capex 1989 - Medalla de Vermeil Grande
- Philexfrance 1989 - Medalla de Vermeil Grande
- España 2000 - Medalla de Oro
- Valencia 2004 - Medalla de Oro
- Washington 2006 - Medalla de Oro
- Sescal 2008 (Los Ángeles, California) - Medalla de Oro Grande
- China 2009 - Medalla de Oro Grande y Premio especial
- Portugal 2010 - Medalla de Oro Grande, premio especial y candidato al Gran Prix Internacional.

Fue el primer peruano en obtener tres medallas de Oro grande consecutivas en Exposiciones FIP.

Si tuviéramos que describir a Don Julio en una sola palabra podríamos decir que era todo un “personaje”. Hombre íntegro, fiel a sus creencias e ideas. Muy servicial, alegre y sensible, atento a las necesidades de los otros para ayudarlos en lo que necesitaran. Fallece el 12 de febrero de 2011.

Palmarés en Lisboa 2010. Candidatos para el Grand Prix: Julio Lugón Badaracco recibió la gran medalla de oro y fue nominado para el Grand Prix. A su lado el también candidato para el Grand Prix, Stavros Andreadis, cuya colección “Kassandra: Grecia – Grandes cabezas Hermes 1861 – 1886” ya fue publicada en la EDITION D’OR volumen XXVIII en 2011.

Classic Peru 1857 - 1873

During the time of the Incas a courier postal system called “Chasquis” existed. It was so efficient that even fresh fish could be carried from the coast to the royal palace in Cuzco. After Peru was captured by Spain, in 1514 the Carvajal family obtained the exclusive right to handle mail and communications. In 1768, the postal monopoly reverted to the Spanish state. From 1772 onwards, the first Director of Posts Don Jose de la Riva y Pando established a state-run postal organisation. Together with Peru’s liberation and independence in 1821-24 by Jose de San Martin and Simon Bolivar, postal sovereignty was also transferred to the responsibility of the independent state of Peru.

The first “provisional” stamp issue of 1857

The Pacific Steam Navigation Company (PSNC), which was the first to establish regular steamship lines along the South American coast, arranged in 1847 the production of stamps for the correspondence carried by their ships. However, the PSNC did not obtain the necessary authorisation from the local postal administration to establish regular ship mail between the South American seaports and, therefore, these stamps remained unused. On 17 March 1851 the Peruvian general Director of Posts Dr. Jose Davila Condemarin suggested that the Ministry of the Interior should issue stamps. Although the Ministry of the Interior approved the suggestion on 16 May 1851, the first issue of stamps was delayed until 1857. Then everything had to happen very quickly. Since their own Peruvian stamps were not yet available, the Director-General of Posts remembered the unused stamps of the Pacific Steam Navigation Company, which had been in stock for more than ten years. An enquiry with the PSNC revealed that for the introduction on an experimental basis, the blue 1 real and red-brown 2 reales adhesive stamps for the correspondence between Lima and Chorrillos would be put at their disposal free of charge. From 1 December 1857 onwards, the franking of letters between Lima, Miraflores and Chorrillos with the PSNC stamps, which were sold by the Peruvian postal service, became obligatory. On 13 February 1858, the validity of the “provisional” PSNC stamps was extended to all destinations within the country. Especially used examples of these PSNC stamps, which were temporarily issued by the Peruvian postal administration, are extremely rare.

The Coat of Arms first issue of 1858

After all, the first stamps bearing Peru’s Coat of Arms were available on 10 March 1858: ‘un dinero’ blue, ‘una peseta’ red and ‘medio peso’ yellow. The “provisional” stamps of the PSNC were declared invalid. The new stamps were only valid for domestic use. Their usage on covers sent abroad was quite rare and only served as partial postage up to the frontier or to the foreign post office in Peru which took care of further handling abroad.

Error of Colour 'medio peso' in red

During the production of the lithographic stone for the 'una peseta', by a printer's mistake, five designs of the 'medio peso' stamp were transferred. As a result, the famous error of colour 'medio peso' in red instead of yellow occurred! In Julio Lugón Badaracco's collection, this error of colour is also documented in detail by numerous copies. Among them a fantastic vertical pair of the 'medio peso' red together with the ordinary 'una peseta' red.

The Coat of Arms second issue of 1858

Since the stock of this first issue was soon exhausted, Emilio Prugue produced new lithographic printing stones in Lima. The revised design of the 'un dinero' and the 'una peseta' again was transferred to lithographic stones of 160 stamps each. In November 1858, the printer delivered 3250 sheets of the 'un dinero' blue and 875 sheets of the 'una peseta' red to the postal administration.

The Coat of Arms third issue of 1860

Whereas the first and second issue were both only used for approximately one year, the third issue, which was used from 1860 onwards, was granted a longer "lifetime". The 'un dinero' blue and 'una peseta' red were produced in several printings and had a larger number of copies printed. Obviously, the printer Emilio Prugue had such a perfect lithographic technique that he was able to use the stones for several printings, only having to do a little retouching.

The "Lecoq" - issues from 1862 onwards

Obviously, the Peruvian postal administration was not satisfied with the lithographed printed stamps. The short life of the lithographic stones, extensive reworking ahead of a new printing as well as the costs involved led to a completely new technique of mass production of stamps. The postal administration imported a new "Lecoq printing machine" from France. With the help of the French embossed printing dies, this machine printed coil stamps. By means of a special spiked- or toothed device, the Lecoq printing machine moved an "endless" strip of paper for the next imprint. These strips were "endless", since their ends were glued together. Plate reconstructions are impossible as, for technical printing reasons, no printing

*The only Lecoq Printing Machine
existing today.*

Introduction: Classic Peru 1857 - 1873 · The Julio Lugón Badaracco Collection

plates existed. For the same reason, vertical pairs or blocks of four also do not exist. Between 1862 and 1873, almost without any exception, the Lecoq machine was in continuous operation. As a result, millions of stamps were printed. Julio Lugón Badaracco's collection documents the "Lecoq issues" in detail: "frame struck sideways" (which by mistake were called "horizontal embossed printed coat of arms"), bisects, coil joins and doubly printed frames are shown and explained in detail.

Lot 5186 Lecoq-issues from 1862 were printed in 'endless' strips of paper since their ends were glued together

The railway stamp "El Trencito" of 1870

For the reduced 5 centavos letter rate, a special stamp bearing a picture of the railway was issued to be used only on the railway line Lima-Callao and Lima-Chorrillos. Later, these railway stamps, which were also printed by the Lecoq machine, became valid on all lines that were served by the Peruvian railways.

The first perforated stamps of Peru

In 1866, the first perforated stamp issue was made, the Llama Issue, – printed by the American Bank Note Co. of New York. Julio Lugón Badaracco's collection also includes many unique usages of this stamp issue, among others combination frankings with foreign adhesive stamps on covers sent abroad, bisects, registered letters and mixed frankings.

If you cannot participate in our auction in person, please let us have your bid in writing as early as possible (by e-mail or fax). Bids lower than the estimates printed in our catalogues have hardly any chance of success. Written bids received later than 2 hours before the start of the sale may not be processed. In the event of identical written bids, the earliest will take precedence.

Alternative bids can be placed by using the word „OR“ between lot numbers. To have a better chance of being successful as a bidder we recommend setting a limit for the total amount of your purchases (excl. 20% buyers premium): for example, bidding on a range of lots with a total amount of 10.000 CHF and setting a limit of 7.500 CHF for your purchases means that the total for lots knocked down to you will not exceed the limit you have set. We know from experience that written bids are rarely successful on all lots.

On the other hand, you might have been interested in other lots as well, but not knowing which lots would be knocked down to you and being worried to spend more than a certain amount, you did not bid on them. Giving a *total purchase limit* (see also the Bid Form in this catalogue) enables you to have a better chance of being a more successful postal bidder!

Your written bids will be used only as long as any personally present bidders in the auction room or any other written bids are competing against you. Lots are sold at the lowest price possible: if, for example, you bid 2.200 CHF for a certain stamp and the nearest bid (written or verbal) amounts to 1.500 CHF, you will obtain the lot for 1.600 CHF (i.e. 600 CHF less than your bid, please refer to minimum charge scale published in this catalogue). *We represent you exactly as if you were personally attending the auction sale.*

The fastest way to transmit your postal bids is by e-mail: info@corinphila.ch or by fax +41 (0) 44 - 389 91 95.

Corinthila Auktionen AG: Conditions of Sale

1. The auction will take place publicly and voluntarily. Participation means acceptance in full of the Terms of Auction, considered as known, of Corinthila Auktionen AG (hereafter referred to as the Auctioneer) by the Purchaser (hereafter also referred to as the Bidder or Buyer).

2. All lots mentioned in the catalogue may be inspected by Bidders before or during the auction. The Bidder will be held responsible for any damage caused during the viewing. The Auctioneer has absolute discretion to deviate from the lotting order, to combine two or more lots or to withdraw any lot from the auction. The estimated prices in the catalogue are not binding. The Auctioneer is also authorized to refuse any person's attendance at the auction without giving any reason.

3. The lots are described with greatest care and to the best of the Auctioneer's knowledge. The descriptions do not, however, constitute any particular guarantee. The catalogue illustration prevails as regards the margin, centring, separation and postmark of the stamps. Claims concerning quality and authenticity of single lots must be made immediately by the Buyer being personally present. In the case of written bids for single lots, claims must be made in writing within three days after receipt of the goods. In the case of collections or collective lots containing two or more stamps which are not described individually, no claims will be accepted regarding quality and authenticity. Complaints must also be refused if the stamps are not returned in the original condition, or if they have been altered afterwards by the Buyer, except in the case of marks made by a recognised expert who is responsible for his errors.

4. *The Auctioneer is liable for the authenticity of all single lots sold for a period of 5 years.* This guarantee is expressly excluded in respect of collections, accumulations or collective lots containing more than two stamps which are not described individually - those lots are excluded from any claims. The bidding for single lots which have been certified by an expert denotes the acceptance of the certificate by the Buyer, and in this case the Auctioneer cannot be held liable. If a prospective buyer wishes to bid with an extension on any single lot, the auctioneer must receive notice in writing at least 24 hours prior to the day of the auction; this written notice must give the reason why an extension is required and whose expert opinion is to be sought; the latter must be agreed by the auctioneer. Extensions for expert opinion will normally only be considered for reasons of genuineness or classification; requests for extension for reasons of condition will be decided by the auctioneer on behalf of the vendor prior to the sale. The auctioneer reserves the right

to cancel any bid with an extension (notifying the bidder of his action) if in his opinion the item is not as described within the terms of the request for extension. All extensions must be cleared within 20 days of the auction, after which time the right of return is forfeited. Extensions are not granted on mixed lots or collections. All costs and charges for expert opinions are the responsibility and liability of the buyers.

5. The lots will be sold to the highest Bidder upon three calls. *The Buyer shall pay a commission of 20% added to the hammer price.* Bidders are bound to their bids if a subsequent higher bid is invalid or immediately refused by the Auctioneer.

6. *The minimum bidding increments are as follows:*

	up to CHF	200	= CHF	10
from CHF	200	up to CHF	500	= CHF 20
from CHF	500	up to CHF	1'000	= CHF 50

from CHF	15'000	up to CHF	30'000	= CHF 1'000
from CHF	30'000	up to CHF	50'000	= CHF 2'000
from CHF	50'000	up to CHF	150'000	= CHF 5'000
	over CHF	150'000	= CHF	10'000

**Start prices, bids, hammer prices and invoices
exclusively in Swiss Francs (CHF).**

**Start prices in Euro (EUR) indicated in the catalogues
are only for information.**

7. Written bids which are higher than the best bid of a Bidder present will be considered carefully and in the Bidder's interest but without prejudice. Written bids received later than 2 hours before the start of the auction sale session may not be processed. In the case of two or more identical bids, the first bid received will be deemed to be the successful bid. In case of doubt, disputes or misunderstandings, the lot will be auctioned again. This decision will be made by the Cantonal authority.

8. Upon the fall of the Auctioneer's hammer, a sales contract is entered into between the Auctioneer and the Bidder. The Buyer is obliged to accept the goods. The risk passes to the Buyer with the fall of the hammer; title of ownership, however, passes to the Buyer only after full payment of the total amount due.

9. The total amount due is payable in Swiss Francs (CHF). *Foreign currencies will be accepted to the extent of the amounts*

credited by a principal Swiss bank; any costs arising from exchange rate differences will be borne by the bidder. In addition to the hammer price including the 20% commission, the Swiss value-added tax (VAT) of 8% is payable. VAT is not payable by Buyers from abroad possessing a legal direct export declaration. If Buyers from abroad wish to export the lots themselves, VAT will be debited and refunded upon presentation of the legal export declaration.

10. *Payment of lots is due on the day of auction unless the Auctioneer has granted terms of payment of 5 days thereafter. Bidders who do not personally pick-up their lots are obliged to transfer the amount due immediately on receipt of invoice. The handing over of lots can only be claimed after payment in full. Upon delay of payment the Auctioneer reserves the right either to sue the Buyer for payment or to cancel the sales contract without granting any further grace period and to claim for damages (including lost profits) according to article 107-109 CO. If payment is more than 30 days overdue, a surcharge of 5% and interest in the amount of 1% per month will be payable.*

11. *The lots sold will be forwarded by mail or by other means of transport at the Bidder's risk and expense.*

12. Any Bidders acting on account and behalf of a legal person must submit proof of their representation right (power of attorney, certificate of registration). They are personally liable, especially regarding the obligations entered into during the auction. Bids made for unnamed persons or for persons named later or for not yet legally existing persons cannot be considered.

13. Claims for damages against the Auctioneer for delay, non-performance, positive infringement of contract, fault in breach of contract are not permissible unless the damage was caused deliberately or through gross negligence.

14. The auction will be held under the supervision of the Zurich 8 City Council as participating authority. Neither the Councillor nor his representative nor the City and Council of Zurich are liable for the Auctioneer's actions.

15. The auction and any subsequent legal relationship are subject to Swiss law. *Place of execution and place of jurisdiction is Zurich I.* The Auctioneer, however, reserves the right to sue the Buyer at his place of residence. Unless any special regulations have been made in these terms of auction, the rules under the decree passed by the Zurich Court of Appeals on actions relating to voluntary public auctions dated 19.12.1979 shall apply.
